

Awning

V225 - Porto

- Up to 3 meters projection
- Manual or powered operation
- Closed cassette for optimal protection

Verano[®] your comfort is our concern

www.verano.eu

The Porto is one of the many awnings from the Verano® range. It is an outstanding semi cassette awning with a beautifully finished front profile and top cover. The perfect fit between front frame and top cover prevent the front of the cover from getting dirty.

Optimal operation

A smooth running mechanism operated through a winding handle naturally comes as standard on the Porto®. For added convenience you can also go for electric operation, either with or without remote control. As an optional extra you can equip your awning with a timer, sun sensor or wind sensor. This will extend or retract your Porto® fully automatically when you want, or when weather conditions make that necessary.

Beautiful quality fabric

Verano® has carefully selected some outstanding fabrics, all of which meet the highest quality standards. You can choose from over 100 fabrics in a wide variety of colours and patterns, to ensure you of the best possible UV protection.

Semi cassette awning:

When the awning is retracted only the bottom side of the fabric roller will be visible.

Stabiele techniek

The Porto® offers smooth continuous adjustment with pitch angles ranging from 5° to 30° (see diagram). The drop can be 200, 250, or 300 cm. The front profile can be adjusted to ensure a perfect closing of your awning.

Manufacturer's warranty

Verano® gives a guarantee of as long as 5 years on all its products, providing all instructions regarding proper installation, correct usage and maintenance are followed. The guarantee on the electrics is also valid for a period of 5 years.

CE Marking

The CE marking is your guarantee the product meets all current European safety and quality demands.
